# beautiful bathrooms

---

Be inspired in your bathroom by what Nuance® can do. It's the perfect material for today's bathroom interiors, combining easy maintenance surfaces with stylish designs.

Our award-winning Nuance range offers wall panels and worksurfaces in a wide choice of designs and textures that can create individual interiors. Whether your look is traditional, modern or contemporary, there's a design that will work for you. From large scale luxury granites to subtle neutrals, and weathered timbers to on-trend concrete, you can create long-lasting style.

With Nuance you are assured of long term quality and a 15 year guarantee. Our panels are uniquely manufactured using a patented core that is 100% impervious to water. The panels are so versatile that you can use them to create a true wetroom, to panel out a shower enclosure, go around the bath or behind the washbasin. Another unique style point is that there are no extrusions to detract from the look - just a seamless expanse of decorative design to appreciate.

Let Nuance help you create your perfect bathroom space to relax in and enjoy for years to come.

# stylish and practical

---

Laminate panelling is an ideal alternative to tiling. There are no grout lines to scrub at and day to day cleaning is no more than a simple wipe down.

Nuance panels come in a choice of sizes that make them flexible in both design and use in any bathroom. They can be used to panel out the wall around the bath and even around the bath itself. The large format panels with postformed outer edges mean there are no extrusions and few visible joints to detract the eye.

So, you can lie back and enjoy the look you created with Nuance.

# mix and match

---

With Nuance you can personalise your bathroom with the array of designs, colours and surface textures. Contrast warm woodgrains with natural stones for a fashionable urban feel, or go for glamour by combining a luxury-veined granite with a subtle neutral.

Mix it up and make something really special.

**Pictured right: Salvaged Planked Elm True Scale wall panelling in Puregrain texture and Natural Greystone wall panelling in Roche texture.**

# integrated design

---

Nuance lets you pull the whole design scheme together. The products can flow seamlessly throughout the bathroom in whatever way you choose. Here, they are used behind the basin, to integrate the bath and for seamless panelling in your shower.

Elegant and practical. Let the surface do the talking.

# watertight wetrooms

---

Why not make your en-suite into a wetroom?

Nuance panels work perfectly with a flush-fitting shower tray. The panels are sealed with BB Complete, our specially developed waterproof adhesive, to allow them to sit directly on to the shower tray. And with a 2420mm height they can panel right up to the ceiling and work outside of the shower too for a decorative wall detail.

# shower convert

---

You may be considering converting your bathroom into a shower room with a large enclosure.

For a fashionably streamlined look, why not extend the panels beyond the shower area? The panels can be invisibly jointed and will flow round any internal and external corners. Continuing them behind the basin area ties the scheme together very nicely, whilst also giving you a beautifully practical surface.

**Pictured left: Concrete Formwood True Scale wall panelling in Ardesia texture with Black Sparkle solid surface vanity surface.**

**Pictured detail: Weathered Beamwood True Scale wall panelling in Puregrain texture with Salvaged Planked Elm vanity surface.**

# no trims or extrusions

---

Nuance is unique for being an extrusion-free system. The tongue and groove panels can be jointed with our bespoke adhesive. This gives you joints which are 100% watertight and virtually invisible to the eye.

Easy to clean. A pleasure to use.

# hotel at home

---

Create the boutique hotel look at home using the large scale printed granites and marbles available in our extensive choice of designs.

They are printed in life-like proportion and enhanced by realistic textures, mirroring the luxury of real stone but at a fraction of the price. They are easier to clean and maintain too.

Who needs a hotel when you can have affordable luxury at home every day?

# spa sensation

---

Step into an altogether different showering experience by creating spa-style at home.

Pictured is Dolce Macchiato, a luxurious looking granite that you might find in a top end hotel, luxury penthouse or five star spa. The beauty of laminate is that you can create this look with easy installation and dramatically lower costs.

Just don't tell anyone. Let it be your secret luxury.

# ageless and timeless

---

More and more people are planning their next bathroom to be future-proof with level access wetrooms for ease of use as we grow older.

Easy maintenance also goes with easy mobility. Nuance panels are ideal for panelling out spacious wetrooms. They are fitted, watertight, floor to ceiling and can extend outside of the shower area too for enhanced practicality. With no extrusions and virtually invisible joints, the large decorative surfaces are quick and easy to clean.

With Nuance there is no age limit on style.

No metal trims guarantee a superior look and easy maintenance

Seamless, 100% watertight joint with our specially developed BB Complete adhesive

# 100% waterproof

---

With Nuance you can be 100% confident that your panels will be 100% waterproof.

That's because our panels are made with a patented core that is impervious to water. Add to that the high performance laminate surface, plus installation with our waterproof adhesive and sealant, and you have a shower area that is guaranteed for 15 years to cope with thousands of hours of showering.

Nuance is also unique because it doesn't require any trims or extrusions to help its performance. It's totally waterproof already, and without them you also get a far superior looking finish.

**Pictured left:** Marbled Cappuccino True Scale wall panelling in Radiance texture and Pearl Marble True Scale bath and wall panelling in Etchings texture.

**100% waterproof:** Exclusive and patented core is totally impervious to water and will not swell or degrade

**Quality surface:** High pressure laminate surface offers exceptional performance and easy maintenance

# easy installation

---

Our Nuance panels can be tailored and installed in a matter of hours. So, if you're planning a bathroom project then you can cut down on the disruption and time taken compared to tiling.

And to finish off behind the basin, you can add a matching laminate panel with its neat edge detail for a smart and practical finish.

# perfect flexibility

Our range of Nuance panels gives real flexibility to shape the perfect bathroom. The postformed panels and the standard tongue and groove panels can be linked together to create walk-in wetrooms and work with any shower enclosure. And you can finish a wall wherever you please with the versatile 160mm finishing panel. Here we show you what's on offer.

## A Postformed panels

The most versatile of our panels for shower enclosures and bath panels.

Features one finished radius edge and one tongue to link to T&G panels.

Size 2420 x 1200mm one finished radius edge and one tongue

Available in 25 ex-stock designs.

## B Tongue and groove panels

Our T&G panels in 600mm widths offer the flexibility for less waste and less cost.

Size 2420 x 600mm tongue and groove

Available in 25 ex-stock designs.

## C Tongue and groove panels

Our T&G panels in 1200mm widths result in less joints, as well as offering the flexibility for less waste and less cost.

Size 2420 x 1200mm tongue and groove

Available in 25 ex-stock designs.

## D 160mm Finishing panels

This panel allows you to finish a run of T&G panels vertically with a neat postformed edge detail, instead of using extrusions. It can also be used as an upstand or splashback.

Size 2420 x 160mm one finished radius edge and one tongue

Available in 25 ex-stock designs.

## E Feature panels

With 2 pre-finished edges, the ideal panel to finish behind WCs and wash basins. It's especially good for cloakrooms and en-suites.

Size 2420 x 580mm with 2 finished radius edges

Available in 25 ex-stock designs.

## family shower room

### Get the look

Weathered timber with grey hues gives a bathroom a cool rustic edge, but with a modern relaxed vibe. The Weathered Beamwood panels line out the room blending with the Pearl Marble Etchings shower area and contrast with the Salvaged Planked Elm vanity surface.

## Worksurfaces

Laminate worksurfaces come with a matching 1500mm edge strip.

Solid surface worktops are factory sanded and finished on 3 edges.

Additional edging, jointing and finishing kits are available.

## Panels

Patterns are not designed to match across tongue and groove joints.

This can be more obvious in designs such as Aqua Bubble.

## Panel Trims

Nuance panels are waterproof so do not require trims. However, if you have a preference to use them then they are available in bright polished, white and black.

Types: Internal, external and end cap.

## BB Complete adhesives

To validate your 15 year guarantee BB Complete adhesive must be used.

Nuance must be bonded to the wall with BB Complete panel adhesive and as this is not seen it is a cost effective neutral colour. Designed to fit a standard mastic gun, one 290ml cartridge installs one 1200mm panel.

BB Complete is also available as a sealant in 11 colours to match in with the full range of Nuance designs. See the range matrix above for the right colour for your chosen design. The 290ml cartridge fits a standard mastic gun.

The company reserves the right to change specifications at any time, without notice. Every effort has been made to achieve faithful representations of our products in this brochure, but due to printing limitations we recommend that samples of actual material are requested before purchasing.

# guaranteed to last

## 100% waterproof and even the adhesive is guaranteed

Our unique installation adhesive, BB Complete, is technically superior. Originally developed for the aircraft industry it's flexible, super strong and will not shrink or break down like silicone. It's so good we insist that it's used to validate your guarantee.

Our 15 year guarantee is built on solid foundations.

The exclusive and patented core is totally impervious to water and will not swell or degrade.

The core is surfaced with high pressure laminate bonded with marine grade adhesives.

There are no extrusions anywhere. Open panel ends are always finished with an integrated postformed edge.

Always use BB Complete and you'll have the peace of mind of our 15 year guarantee.

The internationally recognised ISO standards underscore our commitment to manufacturing quality and environmental standards.

Nuance products are manufactured in our factory at Wellingborough and we are proud to support the Made in Britain campaign.

Nuance products are nationally recognised for innovation in functionality

## Care & Maintenance

Nuance worksurfaces and panels are so easy to maintain. On a day-to-day basis all you need to do is wipe them down with a moist cloth and your favourite mild detergent. For more stubborn marks leave the detergent to soak on the surface for a little while before rinsing thoroughly. Do not use abrasive cleaners and bleaches.

Full details can be found in our Care & Maintenance leaflet. One of these is included with every Nuance product purchased but if you need a copy please download it from our website.
